Mr. Tarr and Mr Regan,

We urge to with all haste to require DEQ to hold public hearings on information that has been submitted by the ACP.

For multiple environmental and social justice reasons, we are adamantly against allowing this pipeline to be built across our precious land.

Giant corporations must be stopped from destroying our planet, our North Carolina, our public health.

You know as well as we that we are moving from fossil fuels to renewables at faster and faster rates, with Duke and their ilk dragging their feet.

We are counting on you!
